Supplier must provide web page uptime guarantee- all web pages should be user friendly and easy to navigate.

Priority 2, Internal Connections – Basic Maintenance

Internal Connections are components located at WUHSD’s site that are necessary to transport information to classrooms and to eligible administrative areas or buildings. Internal Connections include connections within, between or among instructional buildings that comprise a school campus, but do not include services that extend beyond the school campus. Components at WUHSD’s site are eligible only if they are an essential element in the transmission of information within the school. The components must be necessary to transport information all the way to individual classrooms. Internal Connections do not include services that extend across a public right of-way beyond the school. Basic maintenance services are defined as follows: “but for the maintenance at issue, the connection would not function and serve its intended purpose with the degree of reliability ordinarily provided in the marketplace to entities receiving such services without E-rate discounts.” Please provide a Basic Maintenance Contract to perform the following tasks on the equipment listed below:

1. Repair and upkeep of eligible hardware
2. Wire and cable maintenance
3. Basic technical support
4. Configuration changes

Bidder’s Basic Maintenance Agreement must contain the Product Location and Make / Model number of the equipment to be covered by the proposed Basic Maintenance Contract (note the table below). This table (or a similar table with like data) must be included in with the Bidder’s Basic Maintenance Agreement:

Location Deployed	Product / Service to be Covered	Make/Model Number

Note: The above worksheet is available for download – please visit: http://www.adsadsi.com/rfp_fy15.htm.

Term: Provide options for 3 year contract.

Maintenance Logs are required to be kept by the service provider and sent to applicant (please include a sample log).

Please note: The following products and services **are NOT eligible**:

1. On-site technical support (*i.e.*, contractor duty station at the applicant site) when off-site technical support can provide basic maintenance on an as-needed basis.
2. Services such as network management and 24-hour network monitoring.
3. Help desks that provide a comprehensive level of support beyond basic maintenance of only eligible components.
4. Technical support contracts that are more than basic maintenance.
5. End User Equipment (PCs and Phones).

Eligible basic maintenance does not include services to maintain ineligible equipment, to enhance the utility of equipment beyond the transport of information, or to provide diagnostic services in excess of those necessary to maintain the equipment’s ability to transport information.

Items Required: Cisco-Authorized Basic Maintenance for all listed Cisco Network Equipment
 A block of hours for general Basic Maintenance on Network Equipment –16 hours per month requested
 Minimum 2 hour Response Time
 Winning Bidder must maintain Cisco Gold Level Certification, as this implies a baseline of knowledge

3Com-Authorized Basic Maintenance for Phone System
 A block of hours for general Basic Maintenance on Phone System –8 hours per month requested
 Minimum 2 hour Response Time
 Winning Bidder must maintain 3Com Certification, as this implies a baseline of knowledge

Proposed agreements or contracts offered **must** specifically identify the eligible components covered, including location deployed, product name, and make/model number.

In the FCC's *Sixth Report and Order* ([FCC 10-175](#)), the FCC included the following information on unbundled warranties and Basic Maintenance of Internal Connections (BMIC):

- We find that an unbundled warranty is an ineligible BMIC service because it is purchased as a type of retainer and not as an actual maintenance service. That is, BMIC contracts that require an upfront payment and that payment is required regardless of whether any service is actually performed are not eligible.
- ...if applicants are able to estimate a certain number of hours per year for maintenance, based on the current life of their equipment and a history of needed repairs and upkeep, they may seek E-rate funds for upfront costs on service contracts designed to cover this estimate of repairs and upkeep. Reimbursements will be paid on the actual work performed and hours used only. For example, if a school determines it will need 30 service hours in a given year to maintain its internal connections but uses only 20 hours, the school will be reimbursed only for 20 hours even if they were approved for E-rate funds on 30 hours.

The *Sixth Report and Order* deems unbundled warranties ineligible for support beginning with FY2011. Applicants cannot simply cost-allocate out the ineligible portion because the Commission's rules do not allow applicants to receive support for services in a basic maintenance contract that contains both eligible and ineligible services. See paragraph 24 of the *Third Report and Order*, CC Docket No. 02-6, [FCC 03-323](#) (2003).

Software downloads, bug fixes, and access to a technical assistance center may be eligible.

Bundled warranties may be eligible for E-rate discounts.

For additional information on the changes to the eligibility of basic maintenance contracts and other changes to the E-rate program for FY2011, you can refer to the following documents:

- *Sixth Report and Order* ([FCC 10-175](#))
- Order [DA 10-2355](#), clarifying the eligibility of basic maintenance and the new E-rate gift rules adopted in the Sixth Report and Order
- Public Notice [DA 10-2356](#), providing further guidance to E-rate participants, listing effective dates of the proposals adopted in the Sixth Report and Order, and answering Frequently Asked Questions (FAQs).
- *Third Report and Order* ([FCC 03-323](#))

Please make sure any required Contracts or Statements of Work are authorized and included in your response.

Eligible Products and Services must be clearly separated from any and all Ineligible Products and Services.

Bids must be delivered to Wasco Union High School District, 2100 7th Street Wasco, CA 93280 with the Sealed BID Marking clearly labeled on the outside of all submissions by the 28th of February 2011 at 3PM (PST).

By submitting a response, Service Provider Agrees to all Terms and Conditions contained within. If Service Provider's response is selected, Wasco Union High School District shall award WUHSD201101319115657 to Service Provider and authorize this cover page - creating a contract. If required, an authorized and dated Service Provider Contract is encouraged to be submitted with the Service Provider's response. All signatures MUST be original.

Service Provider Terms, Conditions and/or additional Contracts:

In order to be considered for award any and all terms, conditions and, or contracts required by the Service Provider must be signed, dated and submitted with the RFP Response.

All Priority 2 Basic Maintenance agreements or contracts must specifically identify the eligible components covered, including product name, model number, and location.

Invoicing the Universal Services Administrative Company (USAC):

The Service Provider will be responsible for invoicing USAC by using the Service Provider Invoice (SPI) methodology. Wasco Union High School District shall be responsible for their share.

Contracts:

FCC rules require that an applicant sign a contract with the service provider before signing and submitting a completed *Services Ordered and Certification Form* (Form 471). Consequently, all Contracts, Statements, of Work, and/or Service Agreements must be submitted with this response with a handwritten signature and date. Countersigned documents may be provided after the Funding Commitment Decision Letters are issued by the Schools and Libraries Division of the Universal Services Administrative Company.
